The RAY – Rural Active Youth Job Portal is a project cofunded by the Erasmus + programme of the EU. It aims at increasing social and labour market inclusion of youth in Rural areas of Slovenia, Bulgaria, Portugal and Italy while supporting enterprises and business in matching labour demand and supply locally. With these objectives in mind, the project partners developed a cutting-edge job portal focused on the needs of rural businesses and rural youth. The platform features two independent login spaces (youth and employers) and a dedicated educational tool to support young people in their career developments. The training and the platform are free of charge and ready-to-use for both young people and business alike.
